

## Hello Agent Pipeline:

Below you will find the Links and Package Codes to begin agency and agent certifications for the upcoming selling year. You will find **3 links and package codes below**:

**Gateway Health will send these links to each of the downline agencies currently active within your downline** (see spreadsheet attachment for full list).

- ✓ **FYI:** You will need to submit the appropriate link to any agency(s) and agent(s) you wish to have certified with Gateway Health that are **not** found on this list.

Once each downline agency has submitted their application and been certified, Gateway Health will then send the Captive Agent and Non Captive Agent links to the certified agency. Agencies will not receive downline agent links until they have submitted their application for review.

### 1. Downline Agency(s):
