## **John Doe & John Doe Insurance Agency**

**Names you can trust for your insurance and financial needs.**

My name is **John Doe**. I have been in the insurance business for **x** years now. I started as a **captive insurance agent** and am now a **broker** with access to **x** insurance companies. I grew up in **City, State**. I attended **College** and have a **Degree** in **Major**.

I specialize in helping you navigate getting started on your journey to retirement; starting with ensuring your Medicare Part A & B are in place. I will help you understand all of the options available for your healthcare and help you decide which path is best for you and your family.

While there are many options out there for you to take your choices; I hope you will give me a call to help you learn how to navigate getting your Medicare in place and to review the annual changes each year that can affect your health & health care choices.

Sincerely,  
**John Doe**
