## Learn More About

### Original Medicare

Original Medicare consists of two parts: Medicare Part A (hospital insurance) and Medicare Part B (medical insurance). **Part A covers inpatient hospital care**, limited time in a nursing facility, limited home healthcare services, and hospice care. **Part B benefits cover non-hospital medical expenses** like office visits, x-rays, blood tests, and other services.

### Medicare Part C

Medicare Part C is **commonly known as Medicare Advantage**. A Medicare Advantage plan is required to **cover everything Original Medicare covers** and may offer additional benefits. It may be one way of adding coverage for prescription drug coverage and benefits above and beyond that of original Medicare.

### Medicare Supplements

Medicare Supplement Insurance Plans are **also known as Medigap policies**. These plans **fill in "gaps" left behind by Original Medicare** Part A & Part B. You can get a Medigap only if you already have Original Medicare. There are 10 different Medigap basic benefits options to choose from. Plans are labeled A, B, C, D, F, G, K, L, M, and N. **Plans benefits are all standardized.**

### Medicare Part D

Medicare Part D prescription drug coverage is **often referred to as Part D**, is provided and coordinated by Medicare-approved private insurance companies. Any beneficiary who does not enroll in Part D **as soon as they are eligible might pay a late-enrollment penalty**. You can get prescription drug coverage **through a stand-alone Part D plan or through a Medicare**
