

Broker Onboarding Journey

How Devoted engages with brokers, from certification to app submission and member retention

MARCH TO MAY

1

Precertification

- If you're a new agent, you can register with Devoted if you're with an agency or if you work as an independent agent by visiting our [Broker Certification page](#).
 - Located in a new PY27 Devoted state? Registering ensures that you get important updates, including information on our PY27 certification and broker rollout events.
 - Located in a state where Devoted plans are already offered? You can complete Devoted's existing certification course to become "Ready-to-Sell" (RTS) with us for PY26.
